

# The ScooterBug Difference

# Industries Served

ScooterBug has a mission to deliver results beyond expectations. Our turnkey programs address specific customer operations and needs.

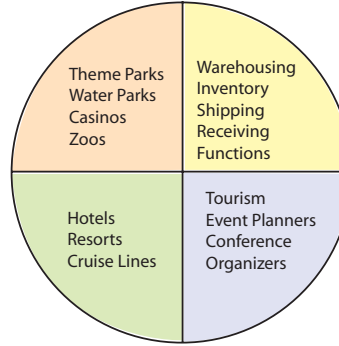

Depending on product and industry, we will craft solutions designed to meet the needs of our customers using our unique no upfront capital plans. These include:

**• Revenue Share Program**

We deliver, install and service, a mobility fleet or guest amenity service, and share in revenues generated through guest use.

**• Lease/Rental Service Program**

This turnkey solution manages equipment capital outlay, planning, maintenance and parts service at a fixed on-going rate. This takes the operations burden off of you, and allows our customers greater flexibility. Our dedicated service teams deliver an advantage you can count on.

## About ScooterBug

ScooterBug delivers value added fleet mobility and enhanced guest service programs to customers across the US, Canada, Mexico and Europe.

ScooterBug is the leader in providing custom solutions and guest mobility product programs for the Leisure and Entertainment industries, including theme parks, zoos, malls, casinos, resorts and other destination locations.

In addition, we address the needs of commercial industries, providing commercial grade fleet management solutions designed to meet the performance requirements of even the most demanding environments. ### Turnkey Mobility Solutions

ScooterBug provides turnkey solutions that are specifically designed to meet your guest mobility and employee material handling needs. From strollers and surrey bikes to electronic material handling carts, we define, deliver, install, train and maintain your mobility needs, while you focus on improving your business advantage.

### No Up-Front Capital Costs

With all of our uniquely designed programs and solutions, there are no upfront capital costs for product acquisition. No capital outlay allows you more flexibility with your operating budget.

### Unique and Customized Products

All of the ScooterBug products have been carefully designed and selected with features, functions and durability to meet the needs and challenges of our customer's environments. We can customize to match themes and branding with logos and color artwork.

### Comprehensive Maintenance Service Program

We provide complete product maintenance services for all of our programs. ScooterBug takes care of all parts and labor required to keep equipment in top shape —and that's one less thing for you to worry about.

### Improve Guest/Employee Satisfaction & Revenue

ScooterBug's programs have proven to support improved guest satisfaction and length of stay. In addition, employees report an increase in job satisfaction and sense of achievement.

Our improved product designs accommodate a wider range of guest demographics — supporting the guest convenience program in generating greater revenue than any other option.

### Knowledge, Talent and Experience

By partnering with ScooterBug, you gain the ability to leverage our wealth of experience. Our professional staff will work with you every step of the way.

### Improved Productivity and Efficiency

Every business wants to maximize productivity and efficiency from their assets. Whether you are trying to increase staff productivity or get the most out of a limited amount of space, ScooterBug products address the myriad of operational needs in your environment.
